Objective

Graduate Assistant at Georgia State University specializing in front-end engineering and interactive UI/UX systems. Proficient in React, TypeScript, and modern CSS (Grid/Flexbox), with experience designing scalable component libraries and dashboards. Seeking a Front-End Developer or Software Engineer role to build performant, user-centric web experiences.

Education

Master of Science in Computer Science

2024–current

Georgia State University, Atlanta, GA

Bachelor of Technology in Computer Science

2020–2024

GITAM University, India

Technical Skills

Languages: JavaScript (ES6+), TypeScript, Python

Front-End: React, HTML5, CSS3 (Grid, Flexbox, Animations), Tailwind, Bootstrap

Tools: Parcel, Vite, npm, Git, VS Code

UI/UX: Figma, Responsive Design, Accessibility (WCAG)

Databases: MySQL, SQLite

Testing: Jest, React Testing Library

Experience

Graduate Assistant

Aug 2024 – Dec 2025

Georgia State University, Atlanta, GA

- Developed a React + Flask financial dashboard improving data accessibility by 40%.
- Optimized front-end architecture, reducing load times by 30%.
- Created interactive data visualizations enhancing clarity and comprehension.
- Led UI/UX optimization sessions cutting page load times by 35%.

Intern Software Engineer

May 2023 – Jun 2023

Defence Research and Development Organization, Hyderabad, India

- Built responsive financial web app using HTML, CSS, JS, and Bootstrap, improving engagement by 25%.
- Enhanced UI/UX with lazy loading and modular CSS, reducing load time by 30%.
- Created Tableau + JavaScript visualizations, reducing analysis time by 40%.
- Implemented Jest testing achieving 95% code reliability.

Projects

Frontend Component Library – React + TypeScript

- Built 15+ reusable UI components (Accordion, Tabs, Modal, Tooltip, Progress Bar, Data Table, Image Carousel, Star Rating).
- Designed with TypeScript, React hooks, and modular CSS for performance and accessibility.

Swiggy-Style Dashboard (Portfolio Project)

- Developed analytics dashboard with dynamic cards, charts, modals, and theme toggling.
- Added animated component demos and hero landing section for interactive showcase.

Shop.co – Responsive E-Commerce Frontend

- Built client-side cart with local storage persistence and reduced DOM reflows by 35%.
- Improved load speed by 40% and user engagement by 25%.
